PB PLANNING LTD – YORKSHIRE LAND LIMITED REFERENCE

To whom it may concern,

I have worked with Yorkshire Land on a number of projects over the last seven years and it is their attention to detail and meticulous thought process that has really stood out for me. Whether a large or small site, they do not change their approach. They believe in each and every site they promote, and no stone is left unturned to ensure that the site is allocated and/or planning permission obtained for development. Though, what really stands out, is their desire to deliver community benefits and a positive local legacy from each of their development proposals.

Should you need any further information or wish to discuss any of the points made further, please do not hesitate to contact me.

Yours sincerely,

PAUL BUTLER
Director
